the pros KNOW

Fast Dry Stain & Seal Ultra Low VOC Stain & Seal

Professional contractors know that successful staining requires easy application, uniform color, and reliable drying. PoloPlaz delivers all of these in every gallon of Fast Dry Stain & Seal. If the job requires VOC compliant products, PoloPlaz has you covered with Ultra Low VOC Stain & Seal. With over 30 vibrant colors and coverage up to 1,200 sf/gal, PoloPlaz is the contractor's first choice for fast drying stain.

- Fast Dry Stain & Seal Regular or Ultra Low VOC formulas
- Over 30 available colors
- Topcoat in just 5 hours
- Coverage up to 1,200 sf/gal as little as \$.02/sf
- Extra build saves seal coat. Finish directly over stain

Available in 1 Quart and 1 Gallon Containers

Prep & Application

Sand floors according to NWFA procedures.

Any existing finish on floor must be removed to ensure even color and proper adhesion.

Sweep and vacuum bare wood. Stain floor as soon as possible after final sanding.

Stir stain thoroughly before use and occasionally during use. Apply small amount to test area first to ensure proper color.

Liberal apply Stain using a lambswool, T-bar, roller, brush or rags. Allow stain to penetrate up to two minutes, but move quickly to avoid lap lines. Rag off excess and always final wipe with the grain for even color.

PROFESSIONAL PROTECTION FOR HARDWOOD FLOORS™

LEADING an INDUSTRY

Tinted Sealers - The New Standard

There's a new buzz in the world of gym floors currently sweeping the nation. The use of tinted sealers as game lines and graphics is the newest craze in sports floor design.

The largest NCAA colleges and NBA programs are jumping on the PoloPlaz bandwagon in their pursuit of the perfect floor. Pressure to have the finest state-of-the-art facility has become common place in a culture where competition is the name of the game. With high schools imitating small colleges, pressure to own the coolest court in the conference has pushed the limits of performance and aesthetics. It has demanded that contractors be highly skilled in their application, and motivated manufacturers to create new and intuitive ways to satisfy our craving for the next big idea in sports floors.

PoloPlaz has created a new line of tinted sealers that is now preferable to the mere application of paint or stain alone. PoloPlaz has single-handedly taken the design game to the next level with an endless variety of exciting color infusions in a product that looks as professional as it performs.

At PoloPlaz we understand that a fantastic floor says that you take your job seriously... and from concept to application to delivery of the completed project, PoloPlaz will be there to service you. We are excited and grateful to be your first choice for all the latest advancements in floor finish and design technology. Call us today to discuss your next big sports floor idea.
