

## **MFMA ADVISES SPORT FLOOR CONTRACTORS TO VERIFY ADA REQUIREMENTS**

Proper installation of raised sport floors, especially in retrofit projects, can have implications for the sport floor contractor where vertical rises exceed ½" in public entrances. The Maple Flooring Manufacturers Association (MFMA) recommends in these instances the sport floor contractor confirms in writing with the architect, design professional or owner these areas meet Federal ADA, state and local access codes before installation begins.

It is the responsibility of the architect, design professional or owner to ensure the project meet Federal ADA, state and local access codes.

If you have any additional questions, please contact MFMA's Technical Director at 888-480-9138 or email MFMA at [mfma@maplefloor.org](mailto:mfma@maplefloor.org)
